BG3 BEST PRACTICES & SAFETY **GUIDELINES**

CRITICAL GUIDELINES

CONTAMINANTS

- NO METAL, PLASTIC, GLASS, RUBBER, OR CLOTH CAN ENTER THE DIGESTION TANK.
- NO OYSTER SHELLS OR LARGE BONES CAN ENTER THE DIGESTION TANK.
- NO MORE THAN 15% OF THE WASTE THAT ENTERS THE MACHINE SHOULD BE COMPOSTABLE UTENSILS OR OTHER SIMILAR ITEMS

CLEANING PROCESS

- NO CHEMICAL CLEANERS CAN BE USED ON THE INSIDE OF THE DIGESTION TANK
- ONLY STAINLESS-STEEL CLEANER CAN BE USED ON THE METAL FASCIA OF THE MACHINE. ONLY SIMPLE GREEN OR GLASS CLEANER CAN BE USED ON THE HMI.
- A REGULAR CLEANING SCHEDULE MUST BE KEPT UP WITH TO MAINTAIN AN ODORLESS AND PEST-FREE PROCESS.
- DO NOT SPRAY CLEANERS/LIQUID DIRECTLY ON THE HMI. USE DAMP PAPER TOWEL/CLOTH AS NEEDED. DAMPEN EITHER BY SPRAYING IT BEFORE WIPING OR FROM CLEANING OTHER PARTS OF THE MACHINE.

BEST PRACTICES

- DO NOT LEAN OR PLACE ANYTHING ON OR ON TOP OF ANY PART OF THE MACHINE. THIS WILL AFFECT WEIGHTS CAPTURED AND OVERALL ACCURACY OF DATA REPORTING.
- USE CAUTION WHEN MOVING SMART CONTAINERS, USE PROPER EQUIPMENT AND BEWARE OF PINCHING AND CRUSHING HAZARDS!
- FEEDING LARGE AMOUNTS OF DRY MATERIAL AT ONE TIME WILL REDUCE PROCESSING EFFICACY. HAVING A BALANCE IN MOISTURE CONTENT OF INSERTED FOOD WASTE IS RECOMMENDED.
- IF THERE ARE ANY QUESTIONS ABOUT MACHINE OPERATION, PLEASE CONTACT BIOGREEN360 CUSTOMER SERVICE FOR ASSISTANCE BEFORE TAKING ACTION.

SAFETY

1. **DO NOT** operate with any power voltage other than the specified voltage!
2. **DO NOT** touch the power plug or any electrical circuits with wet hands!
3. **DO NOT** damage or place heavy objects on power cords!
4. **DO NOT** operate the machine if damage to an electrical panel or cord is seen! Call for service.
5. **DO NOT** attempt to modify or make any changes to the machine or smart containers! Service must be done by authorized service personnel only!
6. **DO NOT** attempt to bypass the safety switch on the digestion tank door!
7. **DO NOT** operate the machine with panels removed!
8. **DO NOT** climb on or attempt to move the machine while it is powered!
9. **DO NOT** block the machine's air vents or push the machine directly against a wall!
10. **DO NOT** block emergency egress, fire extinguishers, alarms, or electrical panels with the machine or smart containers!
11. **DO NOT** use if any unusual behavior arises! Turn off the machine at remote power breaker or press the emergency stop button and call for service!
12. **DO NOT** wash the machine with a hose or power washer, the machine is water resistant not waterproof.
13. **DO NOT** place the unit on an unstable surface! The surface should be level and capable of supporting the weight of the unit.
14. **PLEASE** keep the machine and surrounding area clean! Spills or messes around the machine can create a slipping hazard!
15. **PLEASE** carry out regular visual inspections of the machine and surrounding area are required to ensure the machine functions properly!

16. Should any problem arise while the machine is in operation the operator can press the “Emergency Stop” button to stop the machine and BioGreen360 will be immediately notified!
